

Convergence within a game

Round 1: like someone dancing, with one foot on the ground and one up a little, facing left, like a head yes, like they are kind of leaning back, foot sticking out a little to the left

Round 2: Like a man facing left marching with a flag over his shoulder, Face is pointy looking down

Round 3: looking to the left one leg up pointy face

Round 4: man marching with flag over shoulder

Round 5: marching man with flag over shoulder

Round 6: flag bearer

Divergence between games

.59

Round 1: stomping feet, head is not the highest point of the picture - maybe a shoulder is at the same height, both feet point left

.29

Round 2: diamond head is almost on back and on right side of body; both feet are pointing left

.48

Round 3: sad guy with square backpack, feet to the left

.28

Round 4: stomping feet pointing left; square backpack on right; nose pointing down on left

.32

Round 5: sad guy with backpack, legs to the left

.06

Round 6: sad guy with backpack, legs to the left
